## OBRA Mission Statement

*Our mission is to support and partner with obstetric and gynecologic providers in their efforts to reduce medical errors and enhance patient safety while controlling liability loss. We do this by offering ob-gyn-focused practice improvement tools and medical professional liability insurance solutions, along with evidence-based risk management programs and resources. We strive to be the insurer of choice for obstetricians and gynecologists.*

## Strong Defense for a Frequently Sued Specialty

To be accused of negligence resulting in patient harm is one of the worst things that can happen to any physician.

Your reputation as a competent and caring physician is of utmost importance. Our goal is to defend you for the fairest result—not the cheapest way out of a claim. You gain more control over your defense and less uncertainty with support from the Ob-Gyn Risk Alliance.

## The Ob-Gyn Risk Alliance Defense Panel

OBRA members benefit from a personalized defense led by the best medical malpractice attorneys in the business. This select group of attorneys were invited to join the OBRA Defense Panel based on:

- Extensive experience handling ob-gyn cases
- A strong grasp of medical issues associated with ob-gyn claims
- A proven record of successfully defending high-exposure medical malpractice claims

OBRA panel lawyers oversee cases throughout the litigation process, working closely with experienced local attorneys. You benefit from the individual and collective expertise of these skilled legal professionals.

## Risk Management Educational Activities and Resources

Just as medicine is an evolving science, reducing risk is an ongoing process.

ProAssurance risk management consultants monitor ob-gyn liability issues and recommend activities and resources to help you mitigate risk.

OBRA members who document completion of required risk management activities continue to qualify for the 25% premium credit during renewal consideration.

Activities and resources include:

- A baseline self-assessment
- Personal assistance from experienced risk management consultants
- Unlimited online access to Relias loss prevention courses (CME credit available)
- An Ob-Gyn Tool Kit—with forms, procedures, policies, checklists, patient education materials, and more
- Risk resource guidelines and newsletters
